MINISTER'S MESSAGE:

It gives me great pleasure to present the latest edition of <u>Municipal Financial</u>
Information

Municipal Financial Information contains information on the financial affairs of municipal governments across the province in 1987 - the latest year for which complete figures are available. This informative report should be of great interest not only to provincial and local officials, but to the general public as well.

Significant changes have been made to the format of this year's publication to provide more detailed information on individual municipalities. As in previous years, the Ministry will continue to provide financial data for individual municipalities or groups of municipalities on recourse.

MESSAGE DU MINISTRE :

C'est avec plaisir que je vous présente la version française de la publication Information financière des municipalités, 1987.

Cette publication contient des renseignements sur la situation financière des municipalités de la province pour 1987 - l'année pour laquelle nous avons les renseignements les plus récents. Ce document d'information devrait revêtir un grand intérêt pour les fonctionnaires provinciaux et municipaux et aussi pour le grand public.

Plusieurs changements ont été apportés au format de la publication de façon à fournir des renseignements plus détaillés sur chaque municipalité. Comme par les années passées, le ministère va continuer à répondre aux demandes de données financières sur les municipalités particulières ou sur un aroque de municipalités.

Le ministre des Affaires municipales

John Sweeney Minister of Municipal Affairs Queen's Printer for Ontario, 1990.

This report is in compliance with Section 84 of the Municipal Act and replaces "Local Government Finance in Ontario" which has been published annually since 1975.

Copies may be obtained from:

PREFACE

Data Sources

This publication is based primarily on the Financial Information Returns (FIRs) submitted annually to the Ministry of Municipal Affairs by all ontario municipalities. The statistics shown in this report were extracted from the Ministry's database that contains all the information from the FIRs as well as other municipal data.

The presentation of the data follows the fund basis on which municipalities are required to report their financial affairs. The three funds are the revenue fund, the copital fund and reserves and reserve funds. The first reports not only such ordinary operating expenditures so salaries, services and supplies, but also such items as debt charges, transfers to the capital, fund and transfers to reserves and reserve funds. The second is used to account for expenditures that create or extend the useful life of municipal plant and equipment. The third fund is used to account for money put aside by a municipality for application on designated projects at a later date, to cover future liabilities and to provide for working funds or contingencies.

The functional categories, under which municipal services are reported in the statistical approaches, reflect the standard reporting requirements of the FIR. Section II defines each category and the services or expenditures they include.

In the FIRs, municipalities are required to consolidate the transactions of approximately 2,000 total boards including library and health boards and transit commissions. Exceptions so the reliable hydro systems, gas and telephone utilities, hospitals, constitutions to those include hydro systems, gas and telephone utilities, hospitals, constitutions to those entities appear in the FIR. In order to present an accurate picture of the extent of local financial activities, the figures for conservation authorities and children's aid societies have been adjusted to include provincial transfer payments, their only other source of funds.

Local Government Structure

A general understanding of the structure of Ontario local governments is useful for interpreting the information contained in this publication. At the end of 1987, there were 839 municipalities in the Province. Of these, 800 were "lower tier" or "Local" municipalities (cities, towns, separated towns, villages, townships and improvement districts), and 39

PREFACE

Sources des données

la présente publication s'appuie essentiellement sur les Rapports d'information financière envoyés chaque année par toutes les municipalités de l'Ontario au ministère des Affaires municipales.

Les données sont présentées par fonds, puisque les municipalités doivent déclarer leur situation financiere selon ce mode de comtabilisation. Les trois fonds sont le fonds d'administration, le fonds de capital et d'emprunt et ses reserves et fonds de reserves. Dans e premier, on trouve non seu-ement les depenses ordinaires de fonctionnement telles que les salaires, les services et les fournitures, mais equament des postes tels que les service de la dette, les viraments au fonds de capital et d'emprunt et les virements aux reserves et fonds de réserves. Dans le deuxième, sont comptabilisées les dépenses qui servent à acquérir les installations et le matériel de la municipalité ou à en prolonger la durée de vie utile. Le troisième fonds sert à comptabiliser les montants mis de cotép ar une municipalité en vue de réaliser des projets particuliers à une date ultérieure, d'acquitter ses dettes futures et de se donner un fonds de roulement ou un fonds de prévoyance.

Les catégories fonctionnelles qui ont été retenues pour analyser et présenter les services municipaux dans le texte et les annexes reflètent les normes de présentation des Rapports d'information financière. L'annexe E définit chaque catégorie et les services ou les dépenses qui y figurent.

Dans les Rapports d'information financière, les municipalités doivent consolider les opérations d'environ 2 000 conseils de caux, y compris les conseils de bibliothèque, les conseils de santé et les commissions de transport. Les services publics d'électricité, de gaz et de téléphone, les hobitaux, les offices de protection de la nature, les sociétés d'aide à l'enfance et les cognanismes de logement y font toutefois exception. Seules les contributions des municipalités à ces organismes figurent dans le Rapport d'information financière. Pour présenter une image fidèle des activités financières des municipalités, les chiffres des offices de protection de la nature et des sociétés d'aide à l'enfance ont été redressés afin d'inclure les paiements de transfert provinciaux, leur seule source de financement.

Structure des administrations locales

Pour bien interpréter les renseignements contenus dans la présente publication, il est bon d'avoir une idée générale de la structure des administrations locales de l'Onterio. À la fin de 1987, la province comptait 839 municipalités. De ce nombre, 800 étaient des municipalités de palier inférieur ou municipalités locales (cités, villes, villes séparées, villages, were "Upper tier" municipalities (counties and regional governments). In 1987, only one municipality changed status. On January 1, 1987, the former Improvement District of Sloux Narrows was erected to the Township of Sloux Narrows.

Where the county system is in effect, lower tier municipalities have the responsibility to provide most municipal services to their residents. The county governments provide only county roads, homes for the sped and welfare endimistration out of the spectrum of major servicies generally provided by municipalities. The cities and separated towns located in a county are financially independent of the county for municipal purposes and are responsible for the provision of all services to their residents. As such, they do not raise taxes on behalf of the upper tier or county government. Examples of such centres include the City of London, the City of Windsor, the City of Kingston and the Separated Town of Smith Falls. Lower tiers which participate in the county structure raise taxes for their own purposes as well as money requisitioned by both the upper tier and school board.

Two-thirds of Ontario's population live in areas with a regional form of government. This includes, in addition to the ten regional municipalities established over the period 1969-74, the Municipality of Metropolitan Toronto (1956). The District Municipality of Metropolitan Toronto (1956). The upper tier in a region has more service responsibilities than in a county structure. While there are variations from one region to another, regional services include arterial roads, transit, policing, sever and water systems, planning and development on a region-wide basis, and all health and social services. The lower tier municipalities look after local roads, fire protection, garbage collection, recreation and local planning needs. All lower tier municipalities in a region have services provided to their tapayer's by the region and all raise taxes to support the regional level of government. In some cases, the upper tier will also raise taxes directly from ratepayers in the form of municipal charges such as water billings and sever surcharges.

Communities in northern Onterio are widely dispersed and most territory between them is not organized for municipal purposes. There are no county governments and only one regional government (Sudbury), although, there are several urban centres of significant size. The ten territorial districts into which the north has been divided, exist for judicial and edministrative purposes only. The operations of Local Service Boards and roads boards which provide services to people living in areas without municipal organization, have been excluded from this publication.

In Appendix 8, Ontario's municipalities have been grouped into six types, or sectors. The division of the groups is based on type of organization, servicing responsibilities and location. The six sectors are defined in the 'List of Appendices'. cantons et districts en voie d'organisation), et 39 des municipalités de paller supérieur (contés et municipalités régionales). En 1987, une seule municipalité a changé de statut. Le 1 janvier 1987, l'uncien district en voie d'organisation de Sioux Marrous est devenu Centon de Sioux Marrous.

Lorsque le découpage en contée est en vigueur , les municipalités de palier inférieur ont la responsabilité de fournir la majorité des services municipalités de conté, les municipalités de conté, les fournissent seulment les routes de conté, les foyers pour personnes âgées et les services d'administration de l'aide sociale dans l'éventaîl des principaux services généralement offerts par les municipalités . Les cités et les villes séparées situées dans un conté sont financièrement indépendantes du conté aux fins municipales et sont responsables de la fourniture de tous les services à leurs résidents. Comme tet, elles ne percoivent pas d'impôts pour le compte des municipalités de palier supérieur ni des administrations de contés. Citons comme exemples la cité de London, la cité de Mindsor, la cité de Kingston et la ville séparée de Smith Falls. Les municipalités de palier inférieur qui participant au découpage des contés percoivent des impôts pour leur propre compte, tout comme l'argent demandé par les municipalités de palier supérieur et les conseils scolaires.

Les deux tiers de la population de l'Ontario vivent dans des régions gérées par des municipalités de nature régionale. On y compte, outre les dix municipalités régionales établies au cours de la période 1969-1974, le municipalité de la communante urbaine de Toronto (1954), le amanicipalité de district de Muskoka (1972) et le comté réorganisé d'Oxford (1975). Les municipalités de palier supérieur dans une région doivent assurer plus de services que dans un comté. Bien qu'ils varient d'une région à l'autre, les services régionaux comprennent les routes et artères, les transports en commun, la police, les réseaux d'égouts et d'odduction d'eau, l'aménagement et la mise en valeur du territoire à l'échelle de la région et l'ensemble des services de santé et des services soinux. Les manicipalités de palier inférieur s'occupent des routes locales, de la protection contre les incendies, de la collecte des ordures, des loisirs et de l'enménagement local. Toutes les municipalités de palier inférieur d'une région offrent des services so leurs contribuables par l'intermédiaire de la région et percoivent donné des impôts pour le compte de la municipalité régionale.

Les communautés du Nord de l'Ontario sont très dispersées, et la majeure partie du territoire qui les sépare n'est pas organisée en municipalitée. Il n'existe aucune municipalité de comté, et on y compte une seule municipalité régionale (Sudbury), blen qu'il y ait plusieurs centres urbains assez importants. Les dix districts territoriaux qui composent le Nord existent uniquement à des fins judiciaries et administratives. Nous avons exclu de la présente publication les régies locales de services publics et les offices de la voirie qui fournissent des services aux habitents des régions sons organisation municialet.

Oans l'annexe B, les municipalités de l'Ontario ont été groupées en six types ou catégories. La division des groupes est fondée sur le genre d'organization, les services à fournir et l'emplacement géographique. Distribution of Municipalities

EXECUTIVE SUPPLARY

- Ontario's population grew at approximately 1.7 per cent during 1987 and is now in excess of 9 million.
- The rate of increase for household formation, 2.1 per cent, was marginally higher than in 1986. Specifically, the number of households rose from 3.47 million in 1986 to 3.54 million in 1987. For both 1986 and 1987, the percentage increase in households was preater than the population growth rate, a reverse of the situation experienced in 1985.
- . Total municipal revenues increased by 9.8 per cent to \$11.6 billion, compared to an increase of 8.3 per cent in 1986.
- Municipal property taxation revenues increased by 8.8 per cent to \$3.9 billion. This
 was marginally higher than that of 1986 where an increase of 8.4 per cent was recorded.
- Provincial grants to municipalities for operating and capital purposes amounted to \$3.6 billion, an overall increase of 9.8 per cent from 1986.
- Municipal user fees and other revenues continued to grow steadily at 10.9 and 12.0 per cent, respectively, increasing their share of total revenue from 23.0 per cent in 1977 to 26.2 per cent in 1987.
- Municipal long-term borrowing in 1987 was \$371 million, up 3.3 per cent from 1986.
- Total municipal debt in Ontario has been relatively constant, at about \$2.8 billion and is almost the same as it was 9 years ago in 1978.
- Assessment and mill rates, the principal components on which property taxation is based, experienced some notable changes in 1987. Specifically:
 - Total real property assessment grew at 3.5 per cent, significantly higher than the 2.5 per cent recorded in 1986;
 - Growth in residential assessment in 1987 averaged 3.7 per cent across the Province. The growth rate was significantly higher than in 1986 in all municipal sectors, except Districts where the rate of growth declined from 2.1 per cent in 1986 to 1.8 per cent in 1987.

RELEVÉ GLOBAL

La population de l'Ontario a augmenté d'environ 1,7 % au cours de 1987 et compte à présent plus de 9 millions d'habitants.

La formation des ménages s'est accrue à un taux de 2 %, soit une légère hausse par rapport à 1986. Plus précisément, le nombre des ménages est passé d 3,47 millions en 1986 à 3,54 millions en 1976, Pour les années 1986 et 1987, le pourcentage d'augmentation des ménages était supérieur à celui du taux d'accroissement de la population, une situation inverse de celle connue en 1985.

Le montant total des recettes municipales s'est élevé à 11,6 milliards de dollars, soit une augmentation de 9,8 %, en comparaison d'une augmentation de 8,3 % en 1986.

Les recettes des impôts fonciers municipaux se sont élevées à 3,9 milliards de dollars, soit une augmentation de 8,8 %. Ce taux est légèrement plus élevé que celui de 1986 qui enregistrat une augmentation de 8,4 %.

- Les subventions provinciales allouées aux municipalités à des fins de fonctionnement et d'immobilisations se sont élevées à 3,6 milliards de dollars, une augmentation globale de 9.8 % par rapport à 1986.
- La facturation des services publics et d'autres recettes ont continué de s'accroître régulièrement à un teux de 10,9 et 12,0 %, respectivement, faisant passer leur part des recettes totales de 23 % en 1977 à 26,2 % en 1978.
- L'emprunt municipal à long terme a été de 371 millions de dollars en 1987, soit une augmentation de 3,3 % par rapport à 1986.

Le montant total de la dette municipale en Ontario a été relativement constant, à environ 2,8 milliards de dollars, et est pratiquement le même qu'en 1978, soit il y a 9 ans.

- . L'évaluation foncière et les taux du millième, les éléments principaux sur lesquels sont basés les impôts fonciers, ont connu des changements importants en 1987. En particulier:
 - L'évaluation totale des biens immeubles s'est accrue à un taux de 3,5 %, une augmentation sensible par rapport à celle de 2,5 % enregistrée en 1986.
 - L'évaluation résidentielle a augmenté à un taux moyen de 3,7 % dans toute la province en 1987. Ce taux d'accroissement est sensiblement plus marqué que celui de 1986 enregistré dans tous les secteurs municipaux, à l'exception des municipalités de district où le taux d'accroissement a baissé, passant de 2,1 % en 1986 à 1,8 % en 1987.

- Growth in commercial and industrial assessment was 3.8 per cent in 1987 compared to 3.5 per cent in 1986.
- On a province-wide basis, municipal mill rate increases averaged 6.6 per cent in 1987 compared to 5.5 per cent in 1986.
- Residential municipal tax levels across Ontario averaged \$701 per household in 1987 and were 7.0 per cent higher than in 1986.
- Metro Toronto continued to have the highest average municipal property taxes per household at \$802, an increase of 5.5 per cent over 1986. Regions had the second highest level, at \$776 per household, on increase of 8.2 per cent over 1986.
- In contrast, the Counties and Districts had the Lowest average municipal property takes per household at approximately \$440, an average increase of 7.3 per cent over 1986. However, it should be noted that many of the households in the Counties and Districts do not receive municipal sever or water services, and these are two of the most expensive municipal services.
- Municipal reserves and reserve funds increased by 22 per cent, to \$2.6 billion in 1987. In 1986, reserves and reserve funds increased by 16 per cent.
- Since at least 1977, Regions, not including Metro Toronto, have had the highest level of reserves and reserve funds. In 1987, this total was approximately \$1.5 billion.

- L'évaluation commerciale et industrielle à connu une hausse de 3,6 % en 1987 en comparaison de 3,5 % en 1986.
- Sur une base provinciale, le taux du millième a augmenté en moyenne de 6,6 % en 1987 comparativement à 5,5 % en 1986.
- Le montant des impôts fonciers pour l'habitation dans tout l'Ontario s'est élevé à 701 \$
 par ménage en moyenne en 1987, ce qui représente une hausse de 7,0 % par rapport à 1986.
- La Communauté urbaine de Toronto continue d'enregistrer les impôts fonciers les plus élevés, soit 802 \$ par ménage en moyenne, ce qui représente une augmentation de 5,5% par rapport à 1986. Les municipalités régionales tiennent la seconde place, enregistrant 776 \$ par ménage, soit une augmentation de 8,2 % par rapport à 1986,
 - Par contre, les comtés et les municipalités de district enregistrent les impôts fonciers les plus bas en moyenne, soit environ 440 \$ par ménage, ce qui représente toutefois une augmentation moyenne de 7,3 % par rapport à 1986. Cependant, il faudrait noter qu'un grand nombre de ménages dans les contés et les municipalités de district ne reçoivent pas de services d'égout ou d'eau, qui font tous les deux partie des services municipaux les plus coûteux.
- Les réserves et fonds de réserve municipaux ont augmenté de 22 %, passant à 2,6 milliards de dollars en 1987. En 1986, les réserves et les fonds de réserve avaient augmenté de 16%.
- Depuis au moins 1977, les municipalités régionales, la Communauté urbaine de Toronto non comprise, ont enregistré les réserves et fonds de réserve les plus élevés qui, en 1987, atteignaient environ 1,5 milliard de dollars.

Notes :The 1987 population figure is estimated from 1985 enumeration reports are prepared only in municipal election years which are three years apart.

Assessment figures are derived from the assessment reports prepared each fall for the purpose of the municipal tax roll in the following year.

"n/a" denotes "not applicable".

Equalized Assessment reflects the market value equivalent of local assessment, and includes changes in prices as well as new construction.

Real Growth is based on the equalization of local taxable assessment using a single historical factor in order to estimate real assessment growth and reflects year-to year changes in new construction, building additions and renovations, but not price changes.

- Population increased by 1.7 per cent during 1987 and is now over 9 million.
- La population a augmenté de 1,7 % au cours de 1987 et s'élève maintenant à 9 millions d'habitants.
- Households increased by 2.1 per cent and, as in 1986, the nate of increase in households was higher than the nate of increase in population.
- tes foyers ont augmenté de 2,1 % et, comme en 1986, le taux d'augmentation des foyers était plus élevé que le toux d'augmentation de la population.
- Unemployment rate declined to 6.1 per cent.

Average income per household increased by 4.6 per cent to \$45,900 in 1987.

Le revenu moyen par foyer a augmenté de 4.6 % et s'élevait à 45 900 \$ en 1987.

Notes :Nous avons estimé la population de 1987 d'après le recensement de 1985. Le recensement ne se fait qu'à l'occasion des élections municipales tous les trois ans.

Les chiffres de l'évaluation sont tirés des rapports d'évaluation établis chaque automne pour la constitution du rôle de perception municipale de l'année suivante,

s.o. signifie sans objet.

La péréquation de l'évaluation reflète la valeur marchande équivalente de l'évaluation locale, et tient compte de l'évolution des prix ainsi que des nouvelles constructions.

La croissance réelle se forde sur la péréquetion de l'évaluation locale en fonction d'un soul factuur d'origine afin d'estiner la croissance réelle de l'évaluation, et reflète l'évolution amuelle des nouvelles constructions, des annexes et des rénovations, mais pas de l'évolution des prix.
